Dear Friends,

This year the Western Illinois University Bull Testing Program is in its 44<sup>th</sup> year, and we have a good group of bulls on test. Special thanks to our consignors for sending a good set of bulls.

Listed on the following pages you will find performance through the end of test, pedigree and additional performance information, carcass ultrasound results, as well as EPDs. A complete listing of this year's participating breeders is also included here. Be sure to watch our website for possible updated information on bulls.

All bulls have met the health requirements of the test, tested free of persistent BVD, and their dams have tested free of Johnes. The health requirements can be found on later pages. Prior to the sale, all bulls will go through a complete reproductive and soundness exam to ensure that they are ready to go to work for you.

You will receive a reminder before the sale; however, we want to take this opportunity to share some information on the bulls and to invite you to view the bulls anytime at the test facility. We think that you will be impressed with this year's set of bulls.

Make plans to be in Macomb at the WIU Livestock Center on Friday, March 11 at 7 p.m. where over 50 of these bulls will be sold by Lowderman's Auction Service. Until then—visit our website for the most current information on the bulls. Pictures of the bulls will be available on the website soon.

Thank you,

***Sam Cunningham***
