## Performance Tested Bull Sale

**Friday, March 8, 2019 • 6:30 pm**

**Western Illinois University Livestock Center  
2265 Wigwam Hollow Rd., Macomb, IL 61455**

### *Sale Schedule*

Bulls on Display	3 p.m.
Buyer Registration	5 p.m.
Sale	6:30 p.m.

### *Bull Viewing*

Bulls may be viewed any time at the WIU bull testing facility prior to sale day.

### *Directions to the test station:*

**From the North:** On Hwy. 67 at the north edge of Macomb, just before you get to the city, turn right (west) onto Tower Road at the sign that points the direction to the WIU farm. Go one mile west and turn right (north) on the first road that goes north. Go about one half mile to the top of the hill, turn right at the buildings, and the bull test station is about a quarter mile straight ahead.

**From the West:** From the west on Hwy. 136, turn left (north) onto Wigwam Hollow road at the first stop light (there's a Casey's at that turn). Follow Wigwam Hollow Road north through two curves and you'll come to a T intersection with Tower Road. Turn right (east) and then go back to the north at the first road to the north (about 100 yards). Go about one half mile to the top of the hill, turn right at the buildings, and the bull test station is about a quarter mile straight ahead.

**From the East or South:** Come into Macomb on either Hwy. 136 or 67 (they join at the east edge of Macomb and become Jackson St.), and follow Jackson through Macomb until Highway 67 splits to the north. Go north on Hwy. 67 past the Highway Patrol Station to Tower Road at the very north edge of Macomb. Turn left (west) at the sign that points the direction to the WIU Farm. Go one mile west and turn right (north) on the first road that goes north. Go about one half mile to the top of the hill, turn right at the buildings, and the bull test station is about a quarter mile straight ahead.

### *Sale Day Phones*

Keela Trennepohl 805-440-8421  
Delson Wilcoxon 309-338-1724

### *Auctioneer*

Monte Lowderman 309-255-0110  
Lowderman Auction Service 309-833-5543

### *Faculty*

Dr. Keela Trennepohl,  
Assistant Professor & Bull Test Manager  
Delson Wilcoxon, Beef Operations Manager  
Dr. Andy Baker, School of Agriculture Director  
Dr. John Elfrink,  
Interim Dean College of Business and Technology

### *Bull Test Student Employees*

Katie Miller and Cody Dawson

### *Acknowledgements*

WIU Staff: Jay Pittman, Paul Blome, Megan Wurth, and Barb Woolam  
Student Employees: Nathan Yaks, Becca Wegs, Emily Reif, Paige Skinner, Dalton Humphrey, Caisey DeOrnellas

WIU Beef Production Classes

Bull test management thanks all additional students who assisted to make the bull sale a success.

### *Veterinary Staff*

Dr. John Schar

### *Sale Dinner*

The Sigma Alpha sorority will be operating a food stand from 5 p.m. until completion of the sale.

### *Bidding*

Bidding will be by number. The auctioneer will settle and render a final decision on any disputes pertaining to bidding.

### *Internet Bidding*

[www.DVAuction.com](http://www.DVAuction.com)

Tech Support 402-316-5460

**Please Note:** High-speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 316-5460.

### *Absentee Bids*

If you are unable to attend the sale and would like to place a bid, please contact Keela Trennepohl or Monte Lowderman at the listed numbers. All bids will be handled professionally and with confidence.

### *Sale Videos*

Sale videos can be viewed prior to the sale from your computer or smart phone at [www.dvauction.com/video\\_catalogs/4348](http://www.dvauction.com/video_catalogs/4348).

## EPDs

The EPDs listed were obtained from the American Angus and American Simmental Associations, and are current as of 02/20/19.

## Sale Terms

Terms of sale are cash. **CHECKS SHOULD BE MADE PAYABLE TO THE LOWDERMAN AUCTION SERVICE.** All bulls must be paid for at the sale and before loading. All bulls are the buyer's risk as soon as sold. Announcements made from the auction block will take precedence over the printed material in this catalog.

## Contract

The previous terms and guarantee shall constitute a contract between the buyer and the seller.

## Loading

Bulls will be available to load out at the conclusion of the sale. Arrangements may be made to pick up the bull at a later date by contacting the station staff. Bulls will be housed and cared for by WIU bull test for up to 48 hours after the sale without additional charge.

## Insurance

Insurance may be obtained from representatives at the sale.

## Health

All bulls were tested for brucellosis within 30 days of the sale. Additional health papers, acceptable in any state, will be furnished at the expense of the buyer. All bulls met the health requirements established by the test veterinarian, test advisory committee, and test coordinator before coming on test and their dams tested free of Johnes. All bulls were tested negative for persistently infected (PI) BVD and anaplasmosis.

## Breeding Guarantee

All animals sold are guaranteed by the seller to be breeders. Bulls are guaranteed as long as they are properly cared for. Any bull that settles at least one-third of healthy cows he breeds will be considered a breeder. Should any bull not prove to be a satisfactory breeder within one year of the sale, the seller reserves the right, for a period of six months, to prove the bull a satisfactory breeder. Should the bull fail to prove a satisfactory breeder in the specified time period, the seller will refund the full settlement in satisfaction of all claims. Complaints must be reported in writing to the seller within one year of sale.

## Registry and Transfer

Registration papers will be transferred to the buyer at the seller's expense.

## Animal Health, ID and Nutritional Products

AllFlex USA, Boehringer Ingelheim; Multimin; Vita-Plus; Dearwester Grain

## Liability

All persons in attendance of the sale do so at their own risk. Western Illinois University and its employees assume no liability, legal or otherwise, for accidents which may occur.

## Welcome to the sale...

Dear Valued Customers,

I would like to thank you for your interest in the 47th Annual 2019 WIU Performance Tested Bull Sale. Performance tests provide weaning to yearling comparison performance data among different breeders and genetics. Bulls are rigorously tested prior to arrival being negative for PI-BVD, anaplasmosis, and free of all known genetic defects. Their dams are also tested Johnes negative. They have been vaccinated properly with a respiratory (4-way), clostridal (7-way +somnus), and Pasteurella as well as dewormed for internal and external parasites. During the test, they received Multi-min, dewormer, and tested Brucellosis free. They have also all passed a breeding soundness exam and have been ultrasound scanned for carcass information. They have received a high fiber ration complete with chelated minerals, biotin, yeast, and rumensin to ensure gain has been optimized and that they will be ready to breed cows. Also, new this year, the bulls had access to outdoor runs to keep them more active during development. I challenge you to find another bull developer that gives you the certainty that the WIU bull test does.

These breeders have brought you their best bulls and WIU has given them the best care possible. We are continuously striving to be the best at what we do by making improvements and progressing with the cattle industry. I look forward to seeing you all on March 8th. Please call or email with any questions or if I can be of assistance when selecting your 2019 herd sires.

*Keela Trennepohl, PhD*  
WIU Bull Test Advisor

## EPD Definitions

Production, Maternal, and Carcass EPDS are listed for all breeds. — Indices are breed specific EPDs as printed in the catalog should only be compared within breed. They are not representative of across breed EPDs.

### Production EPDs

**CE/CED** — Calving Ease Direct predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers, with a higher value indicating greater calving ease.

**BW/Brth** — Birth weight expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**WW** — Weaning Weight expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**YW** — Yearling Weight EPD expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

**SC** — Scrotal Circumference EPD expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

### Carcass EPDs

**Fat/BF** — Fat Thickness expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib of a sire's progeny compared to progeny of other sires.

**Marb** — Marbling expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**RE/REA** — Ribeye Area EPD expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

### Maternal EPDs

**Milk** — Maternal Milk — A predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires.

### Indices

#### Simmental

**API** — All Purpose Index — Dollars per cow exposed under an all-purpose-sire scenario. Evaluates sires for use on the entire cow herd (heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

**TI** — Terminal Index — Dollars per cow exposed under a terminal-sire scenario. Evaluates sires for use on mature cows with all offspring put on feed and sold under grade and yield.

#### Angus

**\$W** — Weaned Calf Value — An index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

**\$B** — Beef Value — An index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

• Even though this calf is a Broker which results in a lower API, this bull's War Party Angus dam has excellent numbers and is genetic defect free. This bull is one of the youngest in the offering and still has the highest ADG index within his breed while almost gaining 5 lbs a day. He is good numbered and a beef producer's bull and will only make you profit!

• One of the first sons of W/C Executive 187D to sell at auction. This is a really nicely balanced bull, both in person and on paper. He has 10 epds in the top 35% of the breed, top 30% for CE, WW, YW, CW; top 35% for ADG, Doc, and YG; top 20% of the breed for Milk and top 15% for MWWW. The W/C Executive 187D calves have been easy calving, vigorous at birth, with added length of spine and extra growth. He fits a lot of scenarios whether your selling feeders, fats, or focusing on female production. The bottom side of his pedigree is our Surprise cow family, which is the most influential line of females on the farm. The maternal grandam produced a past top performer and high seller in this very sale.
