Halloween Safety

As Halloween grows near, we want to remind parents of some Halloween safety to protect their children! Here are some great Halloween Safety Tips!

According to the FDA:

- *Tell children not to accept – and especially not to eat – anything that isn't commercially wrapped. Inspect commercially wrapped treats for signs of tampering, such as an unusual appearance or discoloration, tiny pinholes, or tears in wrappers. Throw away anything that looks suspicious!*

Spooky Events:

Here are some safe and local events for this weekend!
