

Congressman Lane Evans Collection

Dates: 1982-2006 (inclusive)

Approximately 231 cubic feet (234 boxes) and 12 linear feet (audiovisual materials housed on shelves in cold storage)

Congressman Lane Evans and his staff sent materials from his office to a Federal Records Center for storage throughout his congressional career. Congressman Lane Evans donated these materials to WIU in 2007.

Abstract

The Congressman Lane Evans Collection consists of materials generated and received by the office of Congressman Lane Evans during his twelve terms in the United States House of Representatives representing the Seventeenth District of the state of Illinois. The following is a brief timeline of Congressman Lane Evans's life, with emphasis on his congressional career. After each session of congress, issues of particular interest to Evans are listed. These are far from the only issues he addressed throughout his career, but listing them provides an idea of some of the topics well-documented throughout this collection, as well as the years in which Evans addressed these issues.

The Congressman Lane Evans Collection is arranged in eleven series. Some of these series are based on the original arrangement of the materials by Evans and his staff. Other small series were formed for the preservation of materials in the collection, such as photographs and audiovisual materials.

With 173 boxes, the Legislative Files is by far the largest series in this collection. This series is broken down into subseries based on congress and then further divided topically. This arrangement provides consistency across the series and does not reflect the arrangement used by Evans and his staff, although the original arrangement of materials within folders was maintained whenever possible. Prior to 1993, Evans's legislative files consisted of constituent correspondence and legislative research files which were kept together, arranged by congress and then committee. Starting in 1993, the legislative files were kept by subject rather than committee, and they were often kept by the legislative assistant responsible for a particular subject area. This is also when constituent correspondence more regularly was filed separately from the legislative files.

Later in his career, Evans's activities in the state of Illinois, such as grants and projects, often intertwined with his committee and legislative work. His work for veterans, for example, included projects, grants, and correspondence with the Department of Veterans' Affairs on behalf of local veterans and veterans' organizations, as well as work on behalf of veterans nationwide in his role as ranking minority member of the Veterans' Affairs Committee. In addition, much of the legislation sponsored by Evans concerned the department of Veterans' Affairs and the Department of

Defense. These files on veterans can be found primarily in the Veterans' Affairs subseries found under each congress, and were often the files of Tom O'Donnell, who worked in the Washington office from 1990-2002, first as a legislative assistant and then as Legislative Director, specializing in Veterans Affairs starting in 1997.

Evans's extensive work regarding Agent Orange and its health effects can be found in the subseries Agent Orange, as well as in the Armed Services and Veterans' Affairs subseries under each congress. The content list includes a note following the folder title of many folders containing information on Agent Orange in cases where the folder title does not indicate this topic's presence, in order to promote locating these materials in the collection.

Other subjects can also be found across multiple subseries. For example, materials concerning the Mississippi River can be found both in the transportation files and in the environment/resources files. Issues related to the Corps of Engineers and flood control can primarily be found in the transportation files, though there are exceptions; for example, Lynh Nguyen, a Legislative Assistant from 1998 to 2000 who was responsible for both transportation and environment, appears to have kept together all materials relating to the Mississippi and other rivers in the same set of files. For reasons such as this, it is helpful to do a keyword search across the entire collection when searching materials on a particular topic.

The Legislative Files also include files related to Evans's position on various House Committees, particularly the Armed Services Committee and the Veterans' Affairs Committee. For Evans's early terms in office, folders covering agriculture bills sponsored by Evans contain more materials because he not only participated in sponsorship of the bill, he also sat on the committee that heard the bill, so these files contain items such as committee testimony.

Evans and his staff also kept files regarding legislation introduced (sponsored or cosponsored) by Evans, including bills; correspondence from constituents, pressure groups, business leaders, and other legislators; pertinent newsletters; reports; and memos from legislative assistants. These files are also arranged in the Legislative Files based on the congress in which the legislation was introduced and the topic of the legislation. When searching for a particular piece of legislation in which Evans was involved, researchers will benefit from doing a keyword search for the title of the legislation, as well as a search for the number of the bill in order to account for the various ways in which these files were identified. For example, researchers can search for "H.R. 1961" and "Agent Orange and Atomic Veterans Relief Act" in order to find information on this piece of legislation from the 98th Congress.

The Accomplishments and Voting Records & Summaries series are also legislative in nature, although kept separate from the Legislative Files series. The Accomplishments series is named for the files of Miscellaneous Accomplishments Evans and his staff kept during his early terms in office. These provide an overview of his activities, such as joining caucuses and cosponsoring bills. The Accomplishments series also includes subseries for the Sign-Ons: Central File and Sign-Ons: Working File. These further document legislation which Evans chose to support while in office, starting with the 102nd Congress. Although not necessarily what one would consider Evans's accomplishments while in office, this series also includes subseries of Statements, Memos, Letters, and Dear Colleagues, as well as strictly Memos. These files parallel information found in the Legislative Files and further identify areas in which Evans was particularly interested. Researchers

will most benefit from the materials in these last two subseries if they are looking for information from a particular time frame, as they are mostly arranged by year, not topic.

The Voting Record & Summaries series consists of materials which document how Evans voted on legislation, arranged by congress. This series does not include items for every term Evans served. The summaries for early years were kept in binders, and are now housed in folders based on the titles of the binders and the categories used by Evans and his staff. Researchers interested in Evans's Voting Record should also consult the Campaign Files subseries of the Personal/Political series.

The Personal/Political series includes nine subseries: Congressional Membership Organizations, Party Leadership Files, General File, Trip File, Lane Accepted Schedules, Tour Calendars, Guest Books, Campaign Files, and Campaign Audiovisual Files. The Congressional Membership Organizations subseries is arranged by congress and then by the particular organization, such as the Populist Caucus, of which Evans was a founding member. The Party Leadership Files include materials only for the 98th and 99th congresses, documenting the response to the President's State of the Union address, as well as information from the Democratic leadership regarding legislative issues and positions within the Democratic leadership. The General File includes various information related to Evans' time as a congressman. This small subseries is arranged by topic.

The Trip File subseries is arranged by congress and then by the particular trip. There are not files for every congress. This subseries includes information regarding trips that Evans took or led as part of Congressional Delegations (CODELs). Some information on trips Evans took related to his congressional career are also located in the Legislative Files series.

The Lane Accepted Schedules subseries includes the Evans's daily schedule as well invitations, letters, and emails regarding various events he chose to attend. This subseries is arranged chronologically, and there are not schedules from every year Evans was in office. For some years, there is not a printed schedule, but there are materials documenting the events he attended. The Tour Calendars subseries and Guest Books subseries are two small subseries of items originally arranged with Evans's schedules. The Tour Calendars subseries includes date books from 1985 to 1987 which document tours scheduled through Evans's office for sites around Washington, DC, such as the White House. The Guest Books subseries includes the guest book from 1984 to 1987 which guests signed when they visited Evans's Washington, DC office.

The Campaign Files subseries includes information related to specific elections, as well as Evans's record between election cycles documented by voting records, scorecards, ratings, questionnaires, and briefing books developed by Evans's staff. The Campaign Audiovisual Files subseries consists of video cassettes, audio cassettes, and other media mostly containing campaign advertisements run by Evans as well as his competitors. These items are housed on shelving, rather than in boxes like the rest of the collection.

The Press Files series mainly consists of materials used and developed by Evans's press secretaries, John Kupper from 1983-1987 and Steve Vetzner from 1987 to 2006. The Press Files best document Evans's first two terms in office. Press-related materials can also be found in the Legislative Files. The Press Files series consists of materials related to the Lane Evans Action Program (LEAP), newsletters sent by Evans to constituents, press releases, congressional record statements, materials related to speeches given by Evans, floor statements, research/subject files, and information on targeted mailings. It also includes subseries of photographs, videos, and audio files used by the press.

secretaries. Photographs of interest include Evans with Ronald Reagan, as well as Evans at various events around the 17th District.

The Constituent Services series is divided into three subseries. The Constituent Correspondence subseries includes letters received by Evans from constituents. These are mainly arranged by congress, and further arranged by topic. Constituent correspondence for the 100th through the 102nd Congresses was housed exclusively in the Legislative Files by Evans's staff. For other years, correspondence can be found in both the Constituent Correspondence subseries as well as within the Legislative Files. Some correspondence from 2000 to 2004 is also arranged in the Constituent Correspondence subseries as miscellaneous correspondence based on date, rather than topic.

The Reply Form Letters subseries consists mainly of letters written by Evans's staff addressing particular topics of concern to constituents. These items were often originally filed in binders, and are now housed in folders based on the titles of the binders and the categories used by Evans's staff. The Statements and Constituent Work is a small subseries within Constituent Services consisting mainly of materials developed by Stephanie Krenich, a member of Evans's staff.

The Office Administration series consists of the General File, Office Procedures, Exit Memos, and Recommendations. The General File is another location of correspondence within this collection. This correspondence includes letters to and from constituents, often regarding requests for information, photographs, tours, flags, etc., as well as letters to and from various departments in the United States government. Materials in Office Procedures, Exit Memos, and Recommendations further document the work of Evans's staff.

The Pulled Photograph File is a series developed for the preservation of photographs and negatives which were housed across the collection. Items in this series are arranged according to the folder title from which the photograph or negative was pulled. A copy of the photograph or negative is stored in the original folder with a note indicating that the original item was removed.

The Pulled Media File is a series developed for the preservation of audiovisual materials which were housed across the collection. Items in this series are arranged according to the folder title from which the item was pulled. These items include CDs, DVDs, floppy disks, and cassette tapes. The content list includes a note next to the title of folders from which media were removed.

The Signature File is a series developed for the signatures of noteworthy individuals, as a preservation measure. Documents with signatures of individuals such as the President of the United States, governors, and cabinet-level secretaries were copied with the copy being filed in the original folder and the original document being filed in the Signature File according to the folder title from which the document was pulled.

The Oversized Item series houses a copy of Veteran magazine from 1990 which features Evans.

There is a great deal of subject overlap between series as well as duplicate materials in various folders. Researchers are encouraged to examine the entire collection in order to discover all materials addressing their interest. The content list is searchable, allowing researchers to easily search for key terms or dates across this large collection.

Content List is in the library.
