Academic Club of Engineering

Meeting Agenda:

- Discuss activities for the present school year

Meeting Attendees: Ryan, Noah, Aaliyah, Alex, Calvin, Tatem, Jack, Bryce, Andrew, Arthur, Austin, Najeh, Harsh, Matt, Daniel AJ

Meeting Minutes:

- All other students who attended the ACE meeting introduced themselves so that members could learn each other's names.
- Alex (SGA Representative) informed the group that a chemistry laboratory will be established on campus- hopefully by next semester.
- President Ryan informed the new members that the organization's main platform of communicating with its members is through Discord. He also encouraged new members to follow ACE on Instagram.
- Ryan and Alex spoke about internship opportunities at John Deere, US Army Corps of Engineers and Great Dane. Ryan mentioned that John Deere is currently looking for applicants for next year summer internships.
- Working in groups on engineering projects was discussed. Arthur, Austin, Andrew, Bryce and Jack were interested in working on a drone project. Tatem was interested in working on the tank that is currently in school.
- Members were informed about going to the Engineering seminar at 4pm and were encouraged to use this opportunity to build connections with individuals at engineering firms.
- All who were present at the meeting decided to partake in the “Welcome Back Social” in the atrium.

The meeting adjourned at 1:00pm
