Free Student Calling Features

E911 – In an emergency, dial 911 for immediate assistance.

ANONYMOUS CALL REJECTION – This feature allows the subscriber to reject incoming calls from callers who have intentionally blocked their caller identification information on the subscribers' display.

AUTOMATIC RECALL – This feature enables the subscriber to return the last incoming call.

AUTOMATIC CALLBACK – This feature enables the subscriber to receive a special ring back tone when the last number they attempted to call was busy.

CALL FORWARD – This feature allows a telephone number to be forwarded to another telephone number.

CALL TRANSFER – This feature allows you to transfer a call to another telephone number.

CALL WAITING – If you are currently on a call, this feature allows you to hear a tone when another caller is trying to reach you.

CALLER ID – This feature is an incoming call service that provides the ability to deliver the directory number of the caller in a ten-digit format to a user's specially equipped telephone.

CUSTOMER ORIGINATED TRACE – This feature enables the subscriber to trace the last incoming call.

PERMANENT HOLD – This feature allows you to place an existing call on hold.

SELECTIVE CALL FORWARDING – This feature allows incoming calls from up to 31 designated numbers to be forwarded to another location.

SELECTIVE CALL REJECTION – This feature allows the subscriber to specify up to 31 directory numbers from which calls are to be rejected or blocked. The denied calls will be redirected to a call rejection announcement.

SELECTIVE CALL ACCEPTANCE – This feature allows the subscriber to specify up to 31 designated numbers from which the subscriber wishes to receive calls. All other calls will be redirected to a call rejection announcement.

SPEED CALLING – This feature allows the telephone line to be programmed for 2 digit dialing for selected local, long distance, collect, calling card or toll free numbers.
